INTRODUCTION

ART -Blue responsive Magento theme has almost everything that you need for a shopping website. Its responsive layout built with all-in-one powerful features, such as Mega menu, Brand logo and slider, Featured products, Image zooming effects... will surely satisfy your demands for a custom store.

PACKAGE STRUCTURE

- **documentation** – user manual files for current package
- **Licensing** – licensing information
- **psd** – graphics source files
- **upload** – theme source files
- **cms_content_demo** – html sources of cms pages

THEME INSTALLATION

INSTALL MAGENTO

If you haven't got a Magento website yet, you will have to install a copy of Magento Community Edition open source e-commerce web application before using ART – Blue Responsive Magento theme.

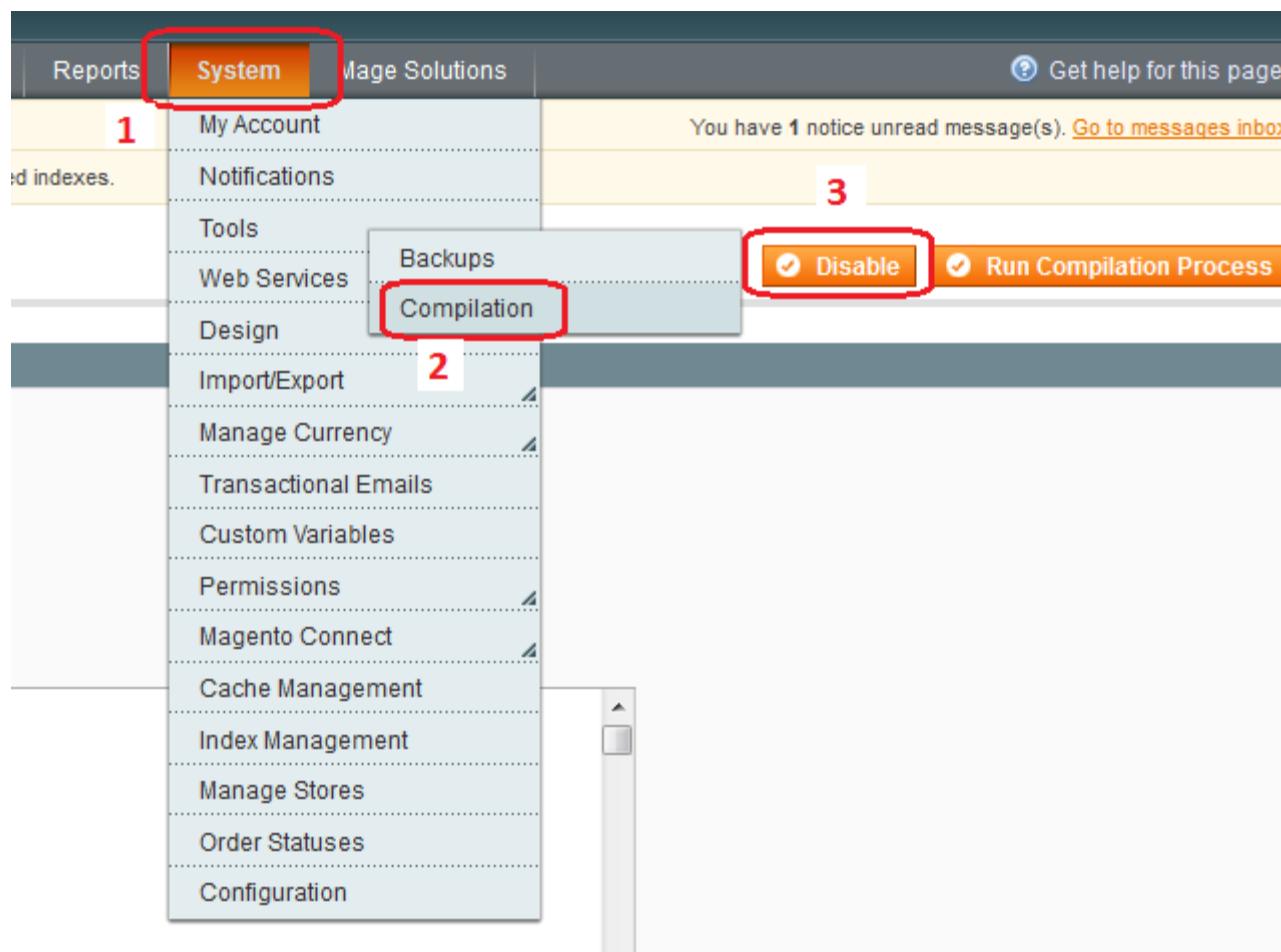

If you already have installed Magento you can skip this section.

To install Magento, follow these steps:

1. Check if your server is compatible with Magento. Find detailed instructions here - <http://www.magentocommerce.com/knowledge-base/entry/how-do-i-know-if-my-server-is-compatible-with-magento>
2. Check if your server meets Magento's System Requirements - <http://www.magentocommerce.com/system-requirements/>
3. If you want to install sample data, use this document - <http://www.magentocommerce.com/knowledge-base/entry/magento-installation-cheat-sheet>
Go to link "More information: [Installing the Sample Data for Magento](#)"
4. If you want to better understand Magento configuration, use this document - <http://www.magentocommerce.com/knowledge-base/entry/magento-installation-guide>
5. When your Magento installation is completed successfully you can start theme installation procedure.

INSTALL THEME

1. Go to *System -> Tools -> Compilation* then disable compiler if it is already enabled, if not, you can skip this step.

2. Using a FTP client to upload content of **upload** folder to the root folder on your Web Server (usually named `public_html`).

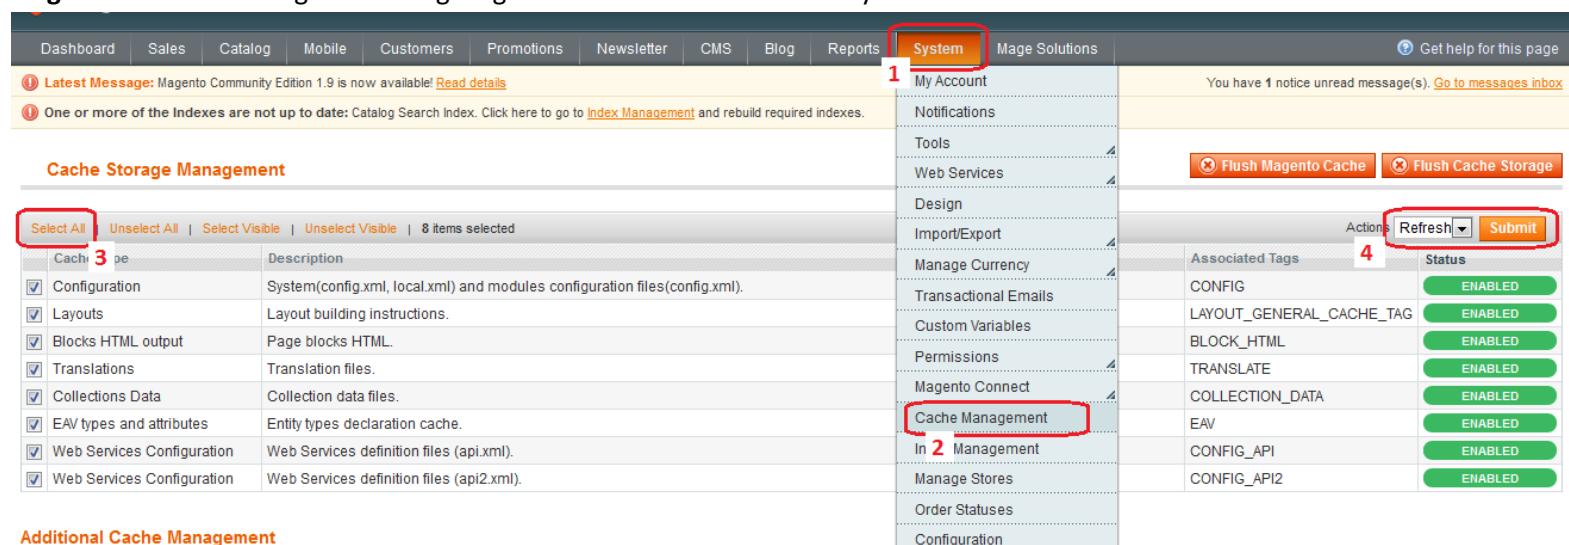

Attention: when you copy content of `upload` folder to the root folder, it will overwrite some files. Please accept it.

- In **upload/ step_1** folder we have source code for each version of Magento, please upload correct version of your Magento site. You can find version of your Magento site at the footer of admin panel.

- You need to upload all content in folder `upload/step_1/magento_version` first, then upload content in folder `upload/step_2`

3. Go to *System -> Cache management*. Select all, choose refresh action and submit. After that you will see new menu item – **Mage Solutions**. Now log out and login again to refresh access control system

4. To use ART – Blue Responsive Mangeto theme, you can go to *System -> Configuration -> Design* and choose Package is "default" and themes default is "porto" as illustrated bellow.

Manage Stores

Configuration

► MAGE SOLUTIONS

- About Us
- Porto Theme
- Megamenu

► GENERAL

- General
- Web
- Design**
- Currency Setup
- Store Email Addresses
- Contacts
- Reports
- Content Management

► CATALOG

- Catalog
- Inventory

Package

Current Package Name: default [STORE VIEW]

Themes

Translations: [STORE VIEW]

Templates: [STORE VIEW]

Add Exception [STORE VIEW]

► Match expressions in the same order as displayed in the configuration.

Skin (Images / CSS): [STORE VIEW]

Add Exception [STORE VIEW]

Layout: [STORE VIEW]

Add Exception [STORE VIEW]

Default: porto [STORE VIEW]

Add Exception [STORE VIEW]

5. Go to *System -> Configuration -> Web* and choose **Default page/CMS Home** page is **Porto Homepage**

► MAGE SOLUTIONS

- About Us
- Porto Theme
- Megamenu

► GENERAL

- General
- Web**
- Design
- Currency Setup
- Store Email Addresses

Secure

Default Pages

Default Web URL: cms [STORE VIEW]

CMS Home Page: **Porto Homepage** [STORE VIEW]

Default No-route URL: cms/index/noRoute [STORE VIEW]

CMS No Route Page: 404 Not Found [STORE VIEW]

CMS No Cookies Page: Enable Cookies [STORE VIEW]

Show Breadcrumbs for CMS Pages: Yes [STORE VIEW]

6. Clear Magento cache as on step 3.
 7. After installing theme successfully you can go to *System -> Tools -> Compilation* and **Run Compilation Process** again

SETUP MULTI LANGUAGES

- To setup multi languages, you can go to *System -> Manage Stores*
- Click **Create Store View** button

New Store View

Store View Information

Store *	1 Main Store
Name *	2 English
Code *	3 en
Status *	Enabled
Sort Order	

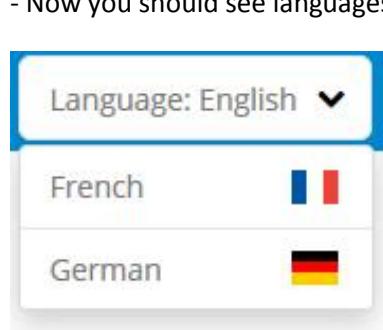

1. Store: choose your Main store
2. Name: Language
3. Code: code for this language.
 - In `upload/step_1/magento_version/skin/frontend/default/porto/images/flags`, find the flag image of this language and rename it to your language code
 - Upload this image to your host

- Press **Save** button
- Go to System -> Configuration -> General

The screenshot shows the 'General' configuration page in the Magento Admin. The left sidebar lists various configuration sections: MAGE SOLUTIONS (About Us, Porto Theme, Megamenu), GENERAL (General, Web, Design, Currency Setup, Store Email Addresses, Contacts, Content Management), CATALOG (Catalog, Inventory, Google Sitemap, RSS Feeds, Email to a Friend), and CUSTOMERS (Newsletter, Customer Configuration, Wishlist). The main 'General' tab is selected. In the 'Countries Options' section, the 'Default Country' dropdown is set to 'United States' (marked with a red box and number 2). In the 'Locale Options' section, the 'Locale' dropdown is set to 'English (United States)' (marked with a red box and number 3). The 'First Day of Week' dropdown shows 'Sunday' as the selected day (marked with a red box and number 3).

1. Choose a store view (language) you have created
2. Choose the Country of this store view (language)
3. Choose locale of this store view (language)

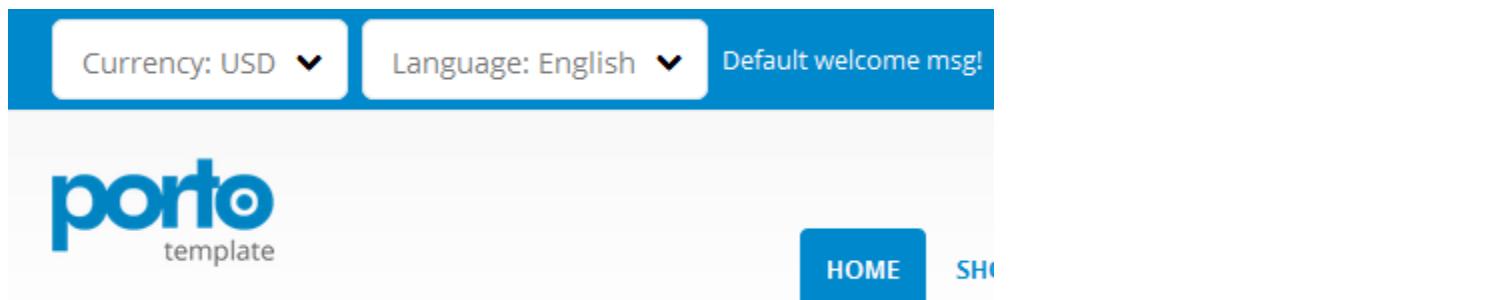

- Press **Save Config** button
- Now you should see languages dropdown on the top left corner.

SETUP CURRENCY

- To setup currency, you can go to *System -> Configuration*, choose **Currency Setup** tab. Set **Allowed Currencies** are the currency you want on your store.
- Go to *System -> Mange Currency Rates*, press import. Wait for the system to import currency exchange rate then press **Save**.

- Go to *System -> Cache Management* and refresh the cache. Now you should see currency dropdown on the top left corner.

INSTALL BLOG

The theme supports Blog extension from aheadWorks, so to use blog on your store, you should install Blog extension.

If you do not want blog on your store, you can skip this step.

- To install blog extensions go to *System -> Magento Connect -> Magento Connect Manager*.
- Log in with admin account of your store.
- Enter key http://connect20.magentocommerce.com/community/AW_Blog then press **Install**

Install New Extensions

1 Search for modules via [Magento Connect](#).

2 Paste extension key to install: `connect20.magentocommerce.com/community/AW_Blog` **Install** 2

1

Extension dependencies

Channel	Package Name	Version	Status
community	AW_Blog	1.3.2 (stable)	Already installed

Cancel installation **Proceed** 3

- Press **Proceed** to start installing extension.
- After installing successfully, return to admin

```
Checking dependencies of packages
Installing package community/AW_Blog 1.3.3
Package community/AW_Blog 1.3.3 installed successfully
Package installed:
  community AW_Blog 1.3.3

Cleaning cache
.
Cache cleaned successfully
```

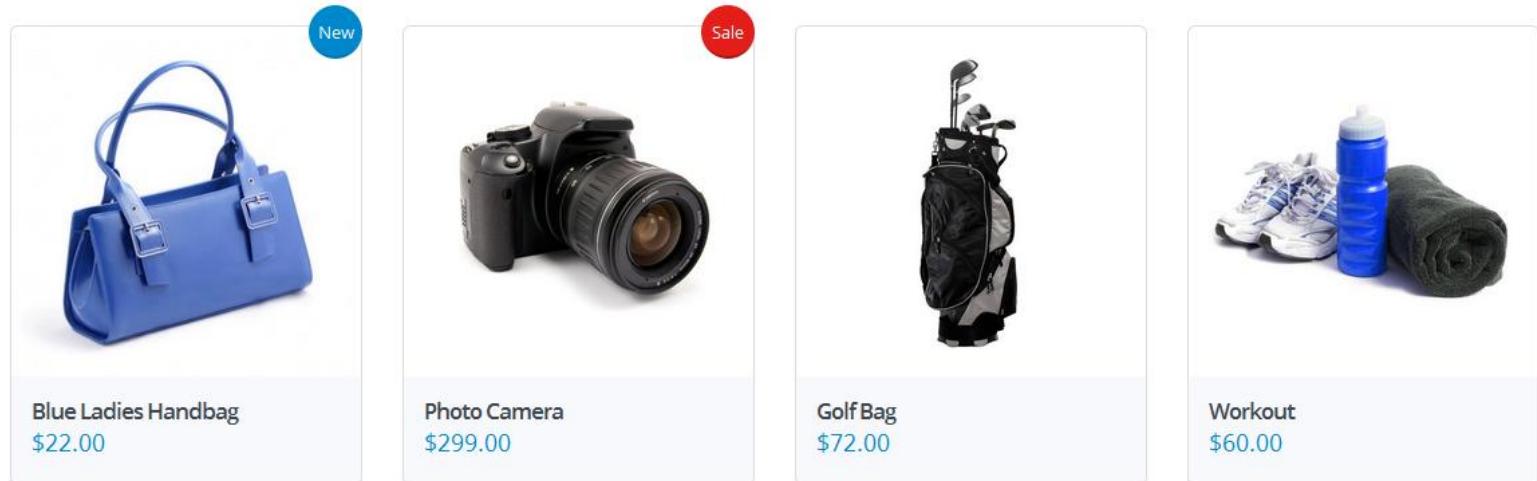

- Go to *System -> Cache Management* and clear cache
- Log out and log in again you will see menu **Blog**
- Upload all content from **upload/blog** to the web root on your web server
- Clear cache again

THEME CONFIGURATION

GENERAL

- **Theme Color:** Choose color of theme, 8 colors available for your selection.
- **Logo:** Upload logo for your store
- **Layout Style:** Choose style of page is wide or boxed
- **Background Pattern:** Choose background image, this option is only available for boxed layout style

EDIT CMS CONTENT

Important!

Never use WYSIWYG editor to add / edit HTML code. It may break your HTML code.

- When you edit a static block having HTML code, click button Show/Hide Editor to switch to HTML edition mode

HOW TO EDIT TOP SOCIALS

- Go to CMS -> Static Blocks, choose block **porto_socials**
- Default code

```
<div class="social-icons">
<ul class="social-icons">
<li class="facebook"><a title="Facebook" href="http://www.facebook.com/" target="_blank">Facebook</a></li>
<li class="twitter"><a title="Twitter" href="http://www.twitter.com/" target="_blank">Twitter</a></li>
<li class="linkedin"><a title="Linkedin" href="http://www.linkedin.com/" target="_blank">Linkedin</a></li>
</ul>
</div>
```

- You can change link of your Facebook, Twitter and Linked In there
- Press **Save Block**

HOW TO EDIT HEADER CONTACT

- Go to CMS -> Static Blocks, choose block **porto_header_contact**
- Default code

```
<p>Get in touch! <span><em class="icon icon-phone"></em>(123) 456-7890</span> | <a href="#">mail@domain.com</a></p>
```

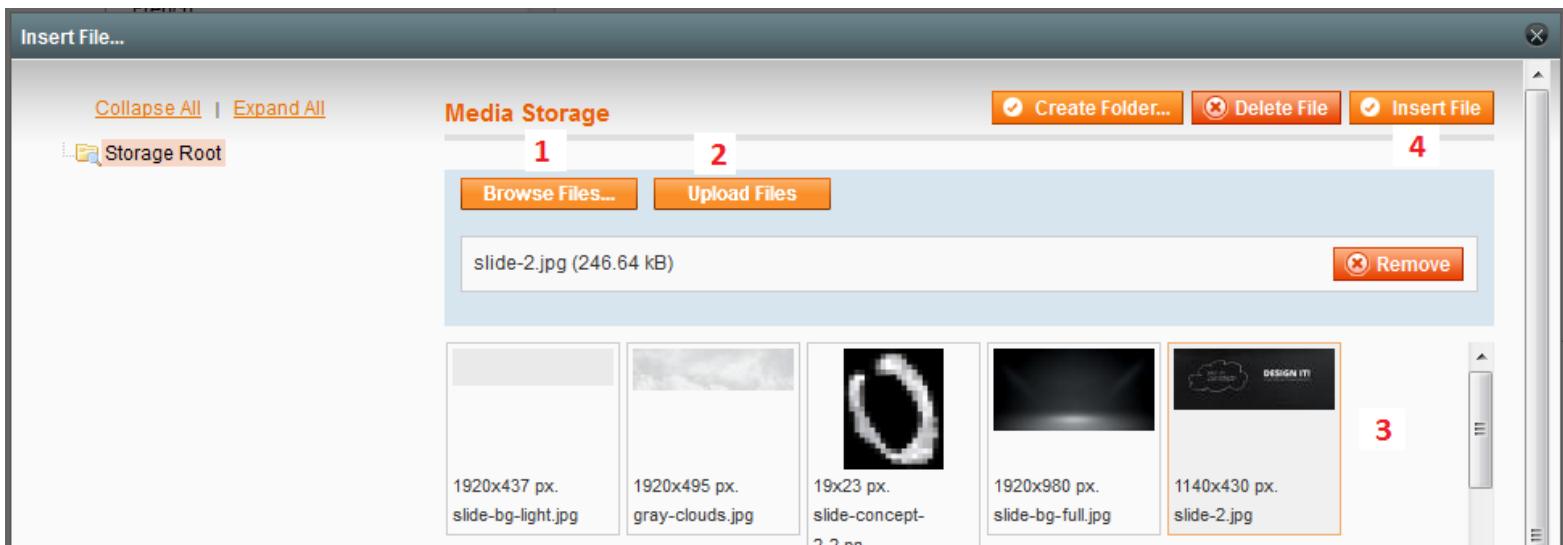

- Change text, phone number, email address here
- Press **Save Block** button.

HOW TO CHANGE SLIDE SHOW IMAGES

- Go to System -> CMS -> Static Blocks, choose block **porto_home_slide** to edit
- Click **Insert Images** to add images

- On the popup, click **Browse Files** and select images from your computer

- Click **Upload Files** to upload images
- After upload finished, choose images you want add
- Click button **Insert File** to insert image
- Then click **Save Block** or **Save and Continue Edit** to save slide block

HOW TO EDIT HOME: OUR FEATURES

- Go to CMS -> Static Blocks, choose block **porto_our_features**
- Default code

```

<h2>Our <strong>Features</strong></h2>
<div class="row">
<div class="col-md-6">
<div class="feature-box">
<div class="feature-box-icon"><em class="icon icon-truck">&nbsp;</em></div>

</div>
<div class="feature-box">
<div class="feature-box-icon"><em class="icon icon-user">&nbsp;</em></div>
<div class="feature-box-info">
<h4 class="shorter">New Customer Save 20%</h4>
<p class="tall">on first order</p>
</div>
</div>
</div>
<div class="col-md-6">
<div class="feature-box">
<div class="feature-box-icon"><em class="icon icon-plane">&nbsp;</em></div>
<div class="feature-box-info">
<h4 class="shorter">Quick Shipping</h4>
<p class="tall">delivery items after 1 day</p>
</div>
</div>
<div class="feature-box">
<div class="feature-box-icon"><em class="icon icon-comments">&nbsp;</em></div>
<div class="feature-box-info">
<h4 class="shorter">Live Support 24/7</h4>
<p class="tall">call us if you need help</p>
</div>
</div>
<div class="feature-box">
<div class="feature-box-icon"><em class="icon icon-envelope">&nbsp;</em></div>
<div class="feature-box-info">
<h4 class="shorter">Join Our Newsletter</h4>
<p class="tall">for more useful infomations, deals, sale...</p>
</div>
</div>
</div>
</div>

```

- You can change title, content of each feature as follows:

```

<div class="feature-box-icon"><em class="icon icon-truck">&nbsp;</em></div>
<div class="feature-box-info">
<h4 class="shorter">Free Shipping</h4>
<p class="tall">on orders over $45.00</p>
</div>

```

- To change icon of feature, you need to change the class in tag <em class="icon icon-truck"> , in this example the class is **icon-truck**. To see available icons you can go to <http://porto.magesolution.com/porto-icons>

HOW TO EDIT HOME: MORE FEATURES

- Go to CMS -> Static block, choose block **porto_more_features**
- Default code

```
<h2>and more...</h2>
<div id="accordion" class="panel-group">
<div class="panel panel-default">
<div class="panel-heading">
<h4 class="panel-title"><a class="accordion-toggle" href="#collapseOne" data-toggle="collapse" data-parent="#accordion"><em class="icon icon-usd">&nbsp;</em> Pricing Tables </a></h4>
</div>
<div id="collapseOne" class="accordion-body collapse in">
<div class="panel-body">Donec tellus massa, tristique sit amet condim vel, facilisis quis sapien. Praesent id enim sit amet odio vulputate eleifend in in tortor.</div>
</div>
</div>
<div class="panel panel-default">
<div class="panel-heading">
<h4 class="panel-title"><a class="accordion-toggle" href="#collapseTwo" data-toggle="collapse" data-parent="#accordion"><em class="icon icon-comment">&nbsp;</em> Contact Forms </a></h4>
</div>
<div id="collapseTwo" class="accordion-body collapse">
<div class="panel-body">Donec tellus massa, tristique sit amet condimentum vel, facilisis quis sapien.</div>
</div>
</div>
</div>
```

- You can edit title, content, and icon of each panel. To change icon, you need to change the class in tag <em class="icon icon-truck"> . To see available icons you can go to <http://porto.magesolution.com/porto-icons>
- You can add more panels by adding this code

```
<div class="panel panel-default">
<div class="panel-heading">
<h4 class="panel-title"><a class="accordion-toggle" href="#collapseOne" data-toggle="collapse" data-parent="#accordion"><em class="icon icon-usd">&nbsp;</em> Pricing Tables </a></h4>
</div>
<div id="collapseOne" class="accordion-body collapse in">
<div class="panel-body">Donec tellus massa, tristique sit amet condim vel, facilisis quis sapien. Praesent id enim sit amet odio vulputate eleifend in in tortor.</div>
</div>
</div>
```

HOW TO EDIT MAP SECTION

- Map section is a block display at the bottom of the Home page, it contains Latest blog posts and testimonial block
- To edit map section block, go to CMS -> Static Blocks, choose block **porto_map_section**
- Default code

```
<div class="map-section">
<div class="featured footer map">
<div class="container">
<div class="row">
<div class="col-md-6">{{widget type="blog/last" blocks_count="6" categories="1"}}</div>
<div class="col-md-6">{{widget type="cms/widget_block" template="cms/widget/static_block/default.phtml" block_id="porto_testimonial"}}</div>
</div>
</div>
</div>
</div>
```

- The widgets are called out like this

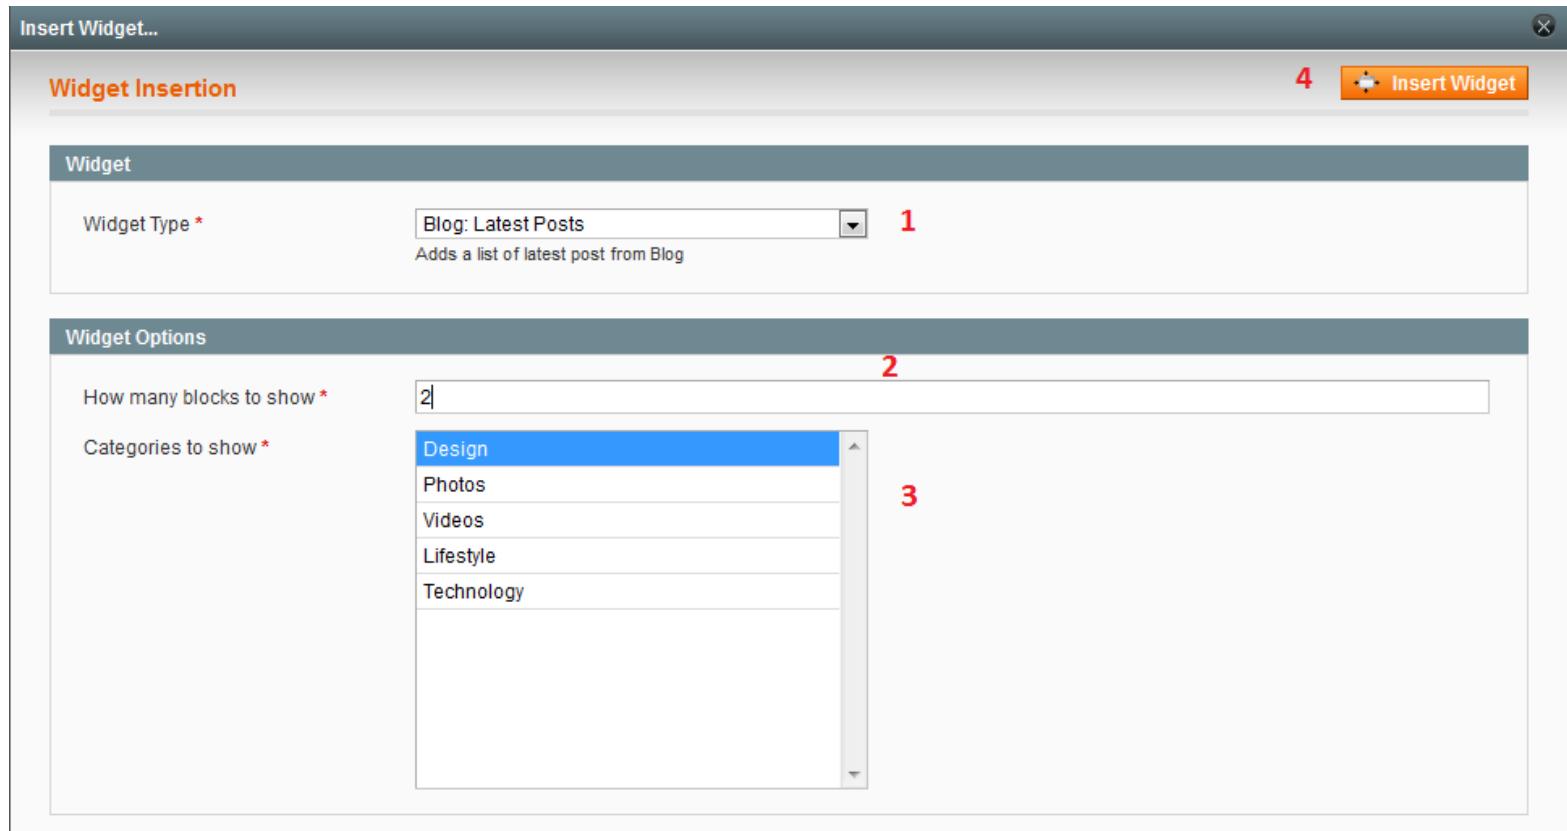

```
<div class="col-md-6">{{widget type="blog/last" blocks_count="6" categories="1"}}</div>
```

```
<div class="col-md-6">{{widget type="cms/widget_block" template="cms/widget/static_block/default.phtml" block_id="porto_testimonial" }}</div>
```

- The first widget blog/last is an AheadWork blog extension, so you need to install AheadWork Blog extension to show it. If you already have aheadWork blog extension, click **Insert Widget** button

- On the popup, choose Widget type **Blog: Latest Posts**
- Choose number of posts to show
- Choose category of post
- Press **Insert Widget**

- The second widget is static block **porto_testimonial**, to edit testimonial, see how to edit testimonial as follows:

HOW TO EDIT HOME TESTIMONIAL

- Go to *CMS -> Static Block*, choose block **porto_testimonial**
- Default code

```
<h2><strong>What</strong> Client's Say</h2>
<div class="row">
<div class="owl-carousel push-bottom" data-plugin-options="{'items': 1, 'autoHeight': true}">
<div>
<div class="col-md-12">
<blockquote class="testimonial">
<p>Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec hendrerit vehicula est, in consequat. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec hendrerit vehicula est, in consequat. Donec hendrerit vehicula est, in consequat. Donec hendrerit vehicula est, in consequat.</p>
</blockquote>
<div class="testimonial-arrow-down">&nbsp;</div>
<div class="testimonial-author">
<div class="img-thumbnail img-thumbnail-small"></div>
<p><strong>John Smith</strong><span>CEO & Founder - Okler</span></p>
</div>
</div>
<div>
<div class="col-md-12">
<blockquote class="testimonial">
<p>Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec hendrerit vehicula est, in consequat. Lorem ipsum dolor sit amet, consectetur adipiscing elit.</p>

```

```

</blockquote>
<div class="testimonial-arrow-down">&nbsp;</div>
<div class="testimonial-author">
<div class="img-thumbnail img-thumbnail-small"></div>
<p><strong>John Smith</strong><span>CEO & Founder - Okler</span></p>
</div>
</div>
</div>
</div>

```

- You can change the testimonial content, client info, image thumbnail. Please keep all HTML tags

HOW TO EDIT FOOTER RISBON

- Go to *CMS -> Static Block*, choose block **porto_ribbon**
- Default code

```
<div class="footer-ribbon"><span>Get in Touch</span></div>
```

- You can change the text for ribbon, the ribbon only shows on footer version 1

HOW TO EDIT FOOTER CONTACT US

- Go to *CMS -> Static Blocks*, choose block **porto_contact_us**
- Default code

```

<div class="contact-details">
<h4>Contact Us</h4>
<ul class="contact">
<li>
<p><em class="icon icon-map-marker"></em> <strong>Address:</strong> 1234 Street Name, City Name, United States</p>
</li>
<li>
<p><em class="icon icon-phone"></em> <strong>Phone:</strong> (123) 456-7890</p>
</li>
<li>
<p><em class="icon icon-envelope"></em> <strong>Email:</strong> <a href="mailto:mail@example.com">mail@example.com</a></p>
</li>
</ul>
</div>

```

- You can add more contact information by adding `` tag. To change icon, you can change class of `<em class="icon icon-map-marker">`. To see available icons, you can go to <http://porto.magesolution.com/porto-icons>

HOW TO EDIT FOOTER FOLLOW US

- Go to *CMS -> Static Block*, choose block **porto_follow_us**. Switch to HTML edition mode.
- Default code

```

<h4>Follow Us</h4>
<div class="social-icons">
<ul class="social-icons">
<li class="facebook"><a title="Facebook" href="http://www.facebook.com/" rel="tooltip" target="_blank" data-placement="bottom">Facebook</a></li>
<li class="twitter"><a title="Twitter" href="http://www.twitter.com/" rel="tooltip" target="_blank" data-placement="bottom">Twitter</a></li>
<li class="linkedin"><a title="Linkedin" href="http://www.linkedin.com/" rel="tooltip" target="_blank" data-placement="bottom">Linkedin</a></li>
</ul>
</div>

```

- You can change Facebook link, Twitter link and Linkedin

HOW TO EDIT FOOTER ABOUT US

- Go to *CMS -> Static Blocks*, choose block **porto_footer_about_us**. Switch to HTML edition mode

- Default code

```
<h4>About Porto</h4>
<p>Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec eu pulvinar magna. Phasellus semper scelerisque purus, et semper nisl lacinia sit amet. Praesent venenatis turpis vitae purus semper, eget sagittis velit venenatis. <a class="btn-flat btn-xs" href="#">View More <em class="icon icon-arrow-right"></em></a></p>
```

- You can change content then press **Save Block**

HOW TO EDIT FOOTER LINKS

- Go to CMS -> Static Blocks, choose block **porto_footer_links**. Switch to HTML edition mode
- Default code

```
<h4>Recent Links</h4>
<ul class="nav nav-list primary push-bottom">
<li><a title="Class aptent taciti sociosqu ad litora torquent" href="#">Class aptent taciti sociosqu ad...</a></li>
<li><a title="Class aptent taciti sociosqu ad litora torquent" href="#">Aptent class taciti sociosqu...</a></li>
<li><a title="Class aptent taciti sociosqu ad litora torquent" href="#">Taciti aptent class sociosqu ad...</a></li>
<li><a title="Class aptent taciti sociosqu ad litora torquent" href="#">Sociosqu class aptent taciti...</a></li>
</ul>
```

- Edit content here then press **Save Block**

HOW TO EDIT FOOTER PRODUCTS

- Go to CMS -> Static Blocks, choose block **porto_footer_products**. Switch to HTML edition mode.
- Default code

```
<h4>Recent Products</h4>
<ul class="list-unstyled recent-work">
<li><a class="thumb-info" href="#"> 
</a></li>
</ul>
<p><a class="btn-flat pull-right btn-xs view-more-recent-work" href="#">View More <em class="icon icon-arrow-right"></em></a></p>
```

- You can change other images here, but please keep class="image-responsive" for responsive feature.

HOW TO EDIT FOOTER LINKS 1

- Go to CMS -> Static Blocks, choose block **porto_footer_links_1**. Switch to HTML edition mode.
- Default code

```
<h5>Blog</h5>
<ul class="list icons list-unstyled">
<li><em class="icon icon-caret-right"></em> <a href="#">Blog Link 1</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Blog Link 2</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Blog Link 3</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Blog Link 4</a></li>
</ul>
```

- Edit content then press **Save Block**

HOW TO EDIT FOOTER LINKS 2

- Go to CMS -> Static Blocks, choose block **porto_footer_links_2**. Switch to HTML edition mode.
- Default code

```
<h5>Pages</h5>
<ul class="list icons list-unstyled">
<li><em class="icon icon-caret-right"></em> <a href="#">Static page link 1</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Static page link 2</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Static page link 3</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Static page link 4</a></li>
</ul>
```

- Edit content here then press **Save Block**

HOW TO EDIT FOOTER LINKS 3

- Go to *CMS -> Static Blocks*, choose block **porto_footer_links_3**. Switch to HTML edition mode.
- Default code

```
<h5>Portfolio</h5>
<ul class="list icons list-unstyled">
<li><em class="icon icon-caret-right"></em> <a href="#">2 Columns</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">3 Columns</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">4 Columns</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#"> Single Project</a></li>
</ul>
```

- Edit content here then press **Save Block**

HOW TO EDIT FOOTER LINKS 4

- Go to *CMS -> Static Blocks*, choose block **porto_footer_links_3**. Switch to HTML edition mode.
- Default code

```
<h5>Extra Pages</h5>
<ul class="list icons list-unstyled">
<li><em class="icon icon-caret-right"></em> <a href="#">Team</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Services</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Careers</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">FAQ</a></li>
<li><em class="icon icon-caret-right"></em> <a href="#">Sitemap</a></li>
</ul>
```

- Edit content here then press **Save Block**

HOW TO CHANGE CATEGORY LAYOUT

For each category on *Catalog > Category Management* you can change category layout to 1 column, 2 columns with left sidebar, 2 columns with right sidebar or 3 columns

The screenshot shows the Magento Admin Panel. On the left, the 'Categories' section is displayed with a tree view of categories. The 'Electronics (14)' category is selected and highlighted with a red box, labeled '1'. On the right, the 'Electronics (ID: 13)' category edit screen is shown. The 'Custom Design' tab is selected and highlighted with a red box, labeled '2'. In the 'Custom Design' section, the 'Page Layout' dropdown is set to '2 columns with right bar' and is also highlighted with a red box, labeled '3'.

1. Click the category you want to change
2. Click **Custom Design** tab
3. Choose the layout you want to change
4. Click **Save Category** button

Now you can see the change of the category

HOW TO SHOW FILTER NAVIGATION ON PRODUCT LISTING

You can display categories on Magento's Layered Navigation block ("Shop by" block) on the top of the left sidebar.

The screenshot shows a product listing page. On the left, a sidebar titled 'Shop By' contains three sections: 'Price' (with filters for \$0.00 - \$99.99 (8), \$100.00 - \$199.99 (4), and \$200.00 and above (2)), 'Size' (with filters for S (5), Unique (3), X (1), XL (3), and XXL (3)), and 'Color' (with filters for Black (4), Blue (3), Brown (3), and Pink (4)). The main area displays a grid of eight products: 'Blue Ladies Handbag' (\$22.00), 'Military Rucksack' (\$49.00), 'Sun Glasses' (\$129.00), 'Pair of Ice Skates' (\$220.00), 'Travel bag' (\$78.00), 'Baseball' (\$15.00 / \$12.00), 'Military Rucksack' (\$49.00), and 'Baseball Cap' (\$25.00 / \$22.00). Each product card includes a small image, the product name, and its price. Status indicators like 'New' and 'Sale' are also present.

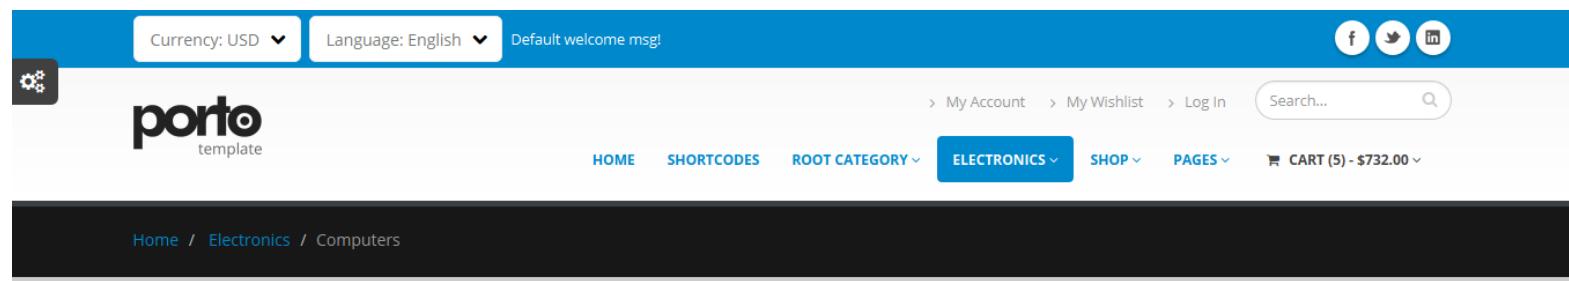

To display category on the Layered Navigation, go to *Catalog > Manage Categories*, click selected category and set **Is Anchor** field (in **Display Settings** tab) to **Yes**

The screenshot shows the Magento Admin Panel. On the left, the 'Categories' section displays a tree structure of categories. The 'Electronics (14)' category is highlighted with a red box. On the right, the 'Electronics (ID: 13)' category page is shown. The 'Display Settings' tab is selected. Under the 'Display Settings' tab, the 'Is Anchor' field is set to 'Yes' and is also highlighted with a red box. Other settings include 'Display Mode' (Products only), 'CMS Block' (Electronics Landing), and 'Available Product Listing Sort By' (Best Value, Name, Price). A 'Use All' checkbox is also present.

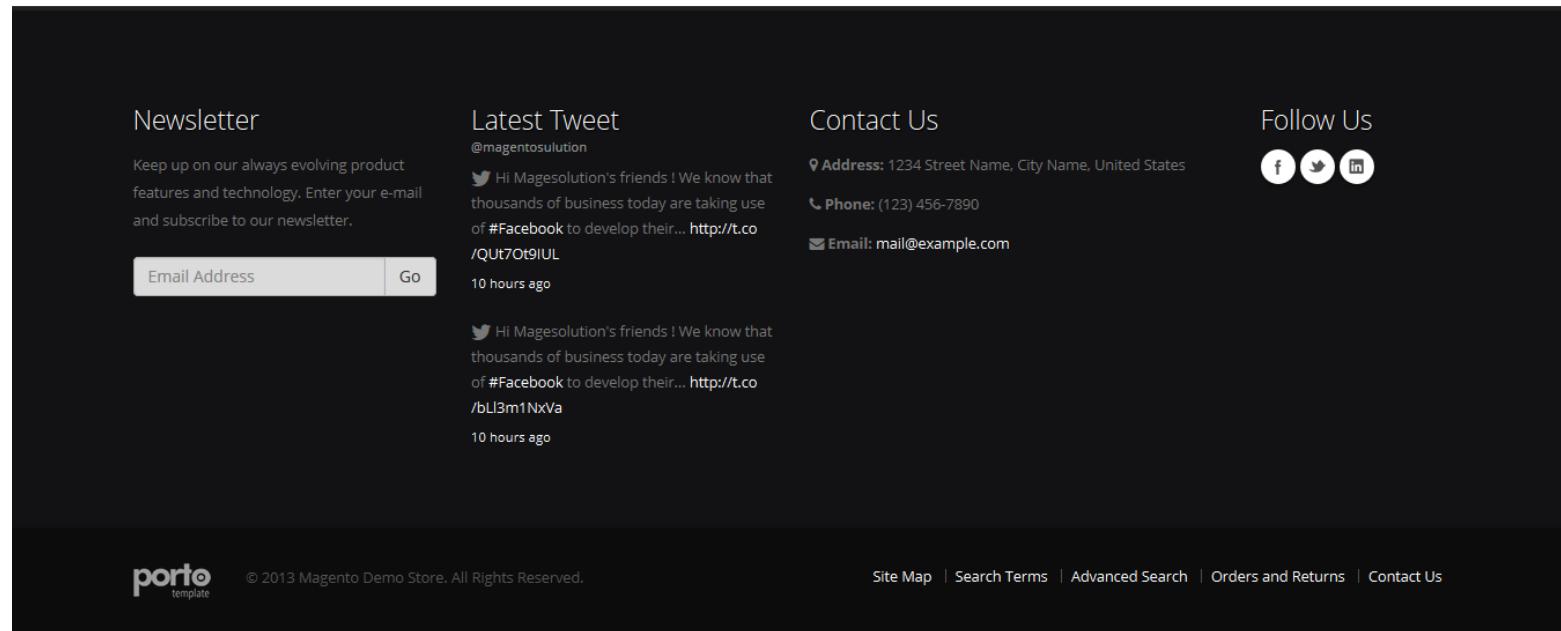

HOW TO SETUP CATEGORY LANDING PAGE

Category landing page is a page listing all sub categories of a category

The screenshot shows a Magento storefront with the 'porto' theme. The top navigation bar includes links for 'HOME', 'SHORTCODES', 'ROOT CATEGORY', 'ELECTRONICS', 'SHOP', 'PAGES', and a 'CART (5) - \$732.00' button. The main content area is titled 'Computers' and displays a grid of eight category cards. Each card features a unique icon and text: 'BUILD YOUR OWN' (laptop), 'LAPTOPS' (house), 'HARD DRIVES' (airplane), 'MONITORS' (runner), 'RAM / MEMORY' (runner), 'CASES' (pencil), 'PROCESSORS' (house), and 'PERIPHERALS' (airplane). Each card also has a '13 products' button.

Computers

The footer section includes a 'Newsletter' form, 'Latest Tweet' from @magentosolution, 'Contact Us' information, and 'Follow Us' social media links.

To set a category to be pricing table, go to *Catalog > Manage Categories*, click selected category and set **Custom Design** field (in **Custom Design** tab) to **pricing**

The screenshot shows the Magento Admin Panel. On the left, under 'Categories', there are buttons for 'Add Root Category' and 'Add Subcategory'. Below that is a 'Choose Store View' dropdown set to 'All Store Views'. The left sidebar lists categories: 'Root Catalog (0)' with 'Furniture (14)', 'Electronics (14)', 'Apparel (13)', 'Household Items (0)', and 'Pricing Tables (0)' highlighted with a red box. Below these are 'Collapse All' and 'Expand All' buttons. On the right, under 'Pricing Tables (ID: 35)', tabs include 'General Information', 'Display Settings', 'Custom Design' (which is selected and highlighted with a red box), and 'Category Products'. The 'Custom Design' section contains fields for 'Use Parent Category Settings' (No), 'Apply To Products' (No), 'Custom Design' (set to 'pricing' and highlighted with a red box), 'Active From' (empty), 'Active To' (empty), 'Page Layout' (No layout updates), and 'Custom Layout Update' (empty).

To create products and assign to pricing table category, you need to create 4 attributes and assign them to an attribute set (eg. Pricing table):

- disk_space
- monthly_bandwidth
- email_accounts
- subdomains

To create an attribute, go to Catalog -> Attribute -> Manage Attributes

- Click Add New Attribute button

The screenshot shows the 'Edit Product Attribute "Disk Space"' page. The 'Properties' tab is selected. In the 'Attribute Properties' section, the 'Attribute Code' is set to 'disk_space' (1). The 'Scope' is set to 'Store View' (2). The 'Catalog Input Type for Store Owner' is set to 'Dropdown' (2). In the 'Frontend Properties' section, the 'Used in Product Listing' field is set to 'Yes' (3). Other properties like 'Use in Quick Search', 'Use in Advanced Search', 'Comparable on Front-end', 'Use In Layered Navigation', 'Use In Search Results Layered Navigation', 'Use for Promo Rule Conditions', 'Position', 'Allow HTML Tags on Frontend', 'Visible on Product View Page on Front-end', and 'Used for Sorting in Product Listing' are set to 'No'.

I. Properties Tab

1. Attribute code: **disk_space** (monthly_bandwidth, mail_accounts, subdomains)
2. Catalog Input Type for Store Owner: **Dropdown**
3. Used in Product Listing: **Yes**

Attribute Information

Properties

Manage Label / Options II

Manage Titles (Size, Color, etc.)

Admin	English	French	German
Disk Space 1			

Manage Options (values of your attribute)

Admin	English	French	German	Position	Is Default	
10G				0	<input type="radio"/>	Add Option
1G				0	<input type="radio"/>	Delete
3G				0	<input type="radio"/>	Delete
5G				0	<input type="radio"/>	Delete

II. Manage Label / Options

1. Manage Titles: **Disk Space** (Monthly Bandwidth, Email Accounts, Subdomains)
2. Manage Options: options of attributes

Create new Attribute Set:

- Go to Catalog -> Attributes -> Manage Attribute Sets
- Click **Add New Set** button

Add New Attribute Set

Edit Set Name

Name * ▲ For internal use.

Based On *

- Click **Save Attribute Set** button
- Drag and drop 4 attributes you have created to a group and save Attribute set

Groups

Add New Delete Selected Group

Double click on a group to rename it

- Show or hide **Product tags**

You are able to add other custom tabs. They will display at frontend like this

Vestibulum ante ipsum primis in faucibus orci luctus et ultrices posuere cubilia Curae; Lorem ipsum dolor sit amet, consectetur adipiscing elit. Fusce sagittis, massa fringilla consequat blandit, mauris ligula porta nisl, non tristique enim sapien vel nisl. Suspendisse vestibulum lobortis dapibus. Vestibulum ante ipsum primis in faucibus orci luctus et ultrices posuere cubilia Curae; Praesent nec tempus nibh. Donec mollis commodo metus et fringilla. Etiam venenatis, diam id adipiscing convallis, nisi eros lobortis tellus, feugiat adipiscing ante ante sit amet dolor. Vestibulum vehicula scelerisque facilisis. Sed faucibus placerat bibendum. Maecenas sollicitudin commodo justo, quis hendrerit leo consequat ac. Proin sit amet risus sapien, eget interdum dui. Proin justo sapien, varius sit amet hendrerit id, egestas quis mauris.

To add a static block to a custom tab, firstly you need to create a static block.

- Go to *CMS -> Static Blocks*
- Press **Add New Product**
- Enter block title, identifier, content ...

General Information

Block Title *

Identifier *

Store View * Main Website
Main Store
English
French
German

Status *

Content *

 Custom tab 1 description

- Press **Save Block**
- Back to product tabs configuration

Custom tab 1	<input style="border: none; border-bottom: 1px solid #ccc; padding: 2px 5px; font-weight: bold;" type="button" value="Static block"/>	[STORE VIEW]
Custom tab 1 title	<input type="text" value="Custom tab 1"/>	[STORE VIEW]
Custom tab 1 value	<input type="text" value="custom_tab_1"/>	[STORE VIEW]

- Choose custom tab 1 is **Static block**
- Enter custom tab 1 title. This title will be shown at frontend.
- Enter static block identifier to custom tab 1 value

To add a product attribute to a custom tab, firstly you need to create a product attribute [see how to create product attribute ->](#)

- When you have a product attribute, back to product tabs configuration

Custom tab 2	Product Attribute	[STORE VIEW]
Custom tab 2 title	Custom tab 2	[STORE VIEW]
Custom tab 2 value	short_description	[STORE VIEW]
<small>▲ attribute code or static block identifier</small>		

- Choose custom tab is **Product Attribute**
- Enter custom tab title, this title will be shown at frontend
- Enter product attribute code to custom tab value

HOW TO ADD RELATED PRODUCTS

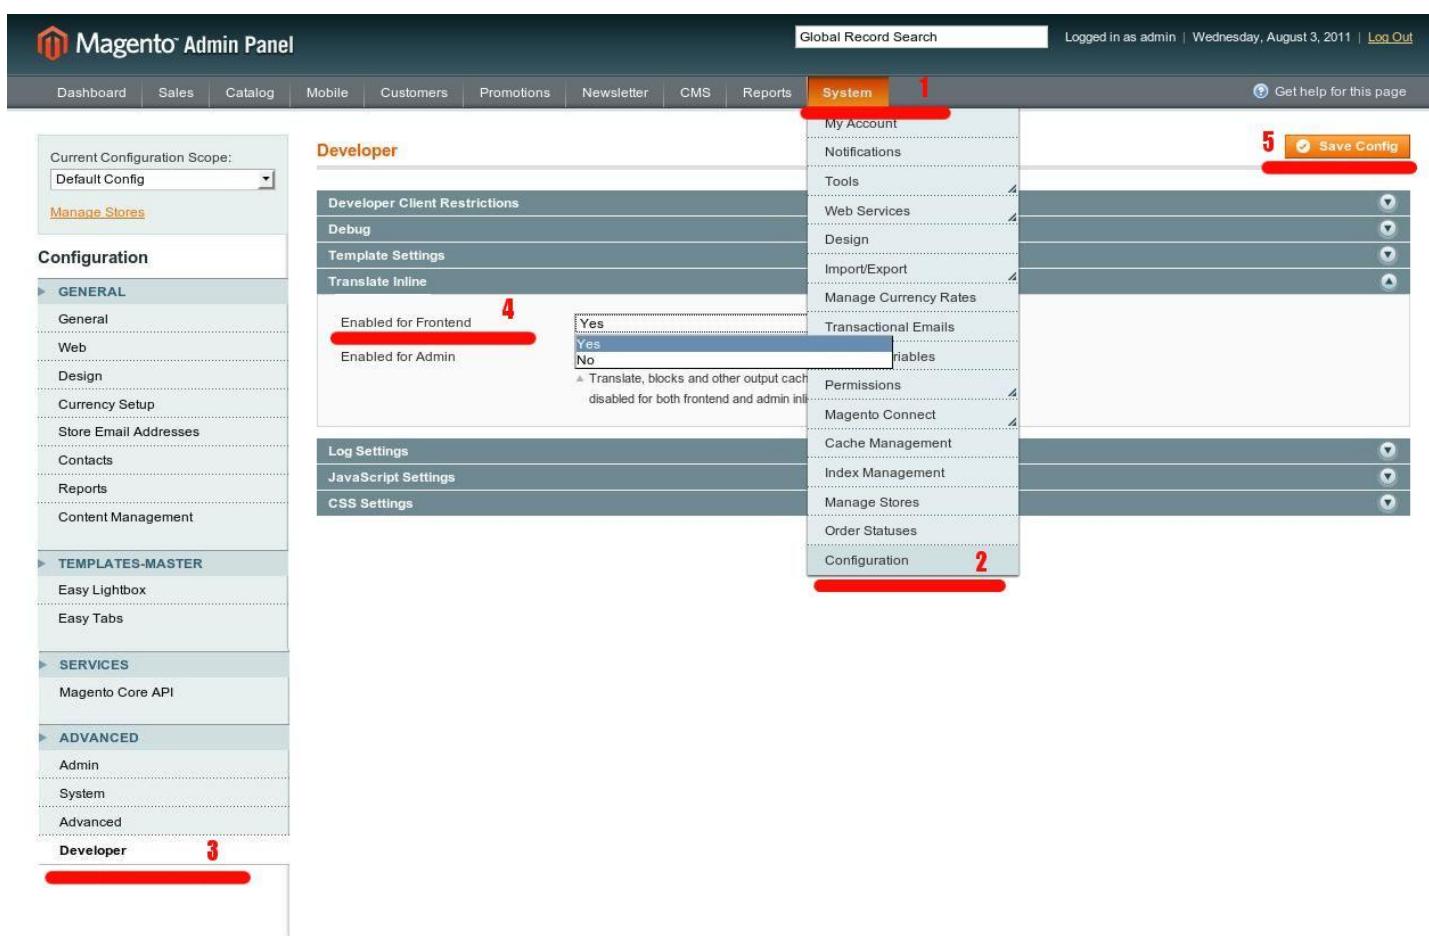

- Go to *Admin panel -> Catalog -> Manage Products*.
- Choose appropriate product.
- Go to **Related Products** tab.
- Press **Reset filter** button.
- Choose appropriate product
- Press **Save** button

HOW TO ADD UP-SELL PRODUCTS

- Go to *Admin panel -> Catalog -> Manage Products*.
- Choose appropriate product(s).
- Go to **Up-sells** tab.
- Press **Reset filter** button.
- Choose appropriate product(s)
- Press **Save** button

HOW TO ENABLE MAGENTO INLINE TRANSLATION FEATURE

- Magento inline translation can be enabled on *System -> Configuration -> Developer -> Inline Translation* in Magento Backend:

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'Global Record Search', 'Logged in as admin | Wednesday, August 3, 2011 | Log Out', and a 'Get help for this page' link. The main menu has tabs for 'Dashboard', 'Sales', 'Catalog', 'Mobile', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Reports', and 'System'. The 'System' tab is highlighted with a red box and the number '1'. A sidebar on the left lists 'Configuration' sections: 'GENERAL' (General, Web, Design, Currency Setup, Store Email Addresses, Contacts, Reports, Content Management), 'TEMPLATES-MASTER' (Easy Lightbox, Easy Tabs), 'SERVICES' (Magento Core API), and 'ADVANCED' (Admin, System, Advanced, Developer). The 'Developer' section is expanded, showing 'Developer Client Restrictions', 'Debug', 'Template Settings', and 'Translate Inline'. Under 'Translate Inline', the 'Enabled for Frontend' dropdown is set to 'Yes' (highlighted with a red box and the number '4'), and the 'Enabled for Admin' dropdown is set to 'No'. A note below the dropdown states: 'Translate, blocks and other output cache disabled for both frontend and admin inline'. The right side of the screen shows a vertical navigation menu with sections like 'My Account', 'Notifications', 'Tools', 'Web Services', 'Design', 'Import/Export', 'Manage Currency Rates', 'Transactional Emails', 'Permissions', 'Magento Connect', 'Cache Management', 'Index Management', 'Manage Stores', 'Order Statuses', and 'Configuration' (highlighted with a red box and the number '2'). A red box and the number '5' highlight the 'Save Config' button at the bottom right of the configuration panel.

- Please also make sure to disable Translation and Blocks HTML output before hitting Submit on *System > Cache Management*:

- After that you can open your Store in browser and translate inline all strings that need to be translated.
